

Dear Prospective Donor:

According to the US Migration Information Source, there are 15 states in which the vast majority of all refugees resettled in the United States are initially placed: California represents nearly 20 percent. Voluntary agencies, mostly religious or community-based organizations, are integral to the refugee resettlement process in the United States, providing resettlement planning; placement; basic needs support, including housing, furnishings, food, and clothing; community orientation; and referral to social service providers including health care.

New Hope for Women and Children Inc. is an organization with extensive experience, close connection, and sensitivity to the special health, education and other immediate needs of HIV/AIDS-affected and orphaned Ethiopian children and their families. Our priority is basic needs and health care for Ethiopian families and children affected by HIV/AIDS. The urgency for the existence for New Hope for Women and Children Inc., Inc. is to provide an immediate neighborhood source of assistance to Ethiopian families in San Diego County through HIV/AIDS education; counseling and referral services; food and basic needs support; special education programs for children and home based caregivers trained in counseling and health care.

The mission of New Hope for Women and Children Inc. is to offer hope to the abused, abandoned and neglected children of Ethiopia East Africa. We accomplish this by mobilizing and strengthening communities so that they can respond to HIV/AIDS. We provide basic services, including AIDS education, and training support to HIV/AIDS affected Ethiopian refugee and immigrant families with special emphasis in serving HIV/AIDS orphaned children.

We need your support. Right now is the best time to show your support for the essential work of New Hope for Women and Children Inc., a grassroots not-for-profit agency. Why not alter the face of your community by mailing your donation to support these invaluable services today?

Your tax-deductible contribution will directly determine how many struggling refugee and immigrant families can help this year. Please give as generous as you can, know that, right now, every dollar will make a significant difference.

For tax preparation purposes, New Hope for Women and Children Inc., is a 501(c)(3) nonprofit organization; tax ID # 65-1249359.

Sincerely,

**Admasu Agiro, HT
